Dyno Testing Operator m/w/x

Geo Technology S.A. is seeking for a **DYNO TESTING OPERATOR** to join our team and participate to the operations of the 5 testing cells (4 engines test cells and 1 powertrain test cell).

The Company :

Geo Technology S.A. is located at Roche (Switzerland). A small town near Montreux, not far from the French and Italian borders. The company was founded at the beginning of 2006 by Osamu Goto, former leader of Honda F1 program (five F1 World Championship titles), with one target:

"To be a Company developing high quality and innovative engineering solutions, with racing speed."

Our core business is to provide support on high-performance powertrain development, from start to finish.
From parts design and manufacturing, up to engine, battery and full vehicle development testing.

Main responsibilities :

- Proceed to the testbed preparation and engine installation according to specifications.
- Propose, elaborate and build the appropriate supports, brackets, mechanical structures when necessary.
- Direct activities for test operation: monitoring and common actions during the tests.
- Perform intermediate-level software operations related to testing (Testbench, INCA, CAN tools).
- Meticulously complete all the information linked to each test to guarantee the traceability of the operations carried out.
- Identify and report in real time all the problems encountered and participate to their resolution.
- Participate in common 1st level maintenance tasks.

Education and Experience :

- Graduate mechanical technician, in internal combustion engines ideally.
- Languages : French or Italian, English is welcome.
- Successful experience on a similar position.
- Proven skills in machining, welding and general mechanical construction.
- Electrical basic skills are welcome.

Personal Attributes :

- Excellent organizational skills and attention to detail.
- Rigorous, autonomous and team oriented.
- Strong analytical and problem-solving skills.
- Ability to work well in a high-paced and, at times, stressful environment.

Framework and details :

- Contract : Permanent contract – 100% time – 45H per week
- Work shift : Possible morning / evening shift
- Department : Testing department.
- Starting date : As soon as possible.
- Salary : According to the profile.
